

Conformer® Expansion Paperboard Folders, Mailers & Portfolios

Conformer® Expansion Products “...pulled together the overall look of the campaigns in a way that could not have been achieved using traditional products.”

– Debbie Ayres, VP Membership Marketing & Education,
Document Management Industries Association

Conformer Expansion Paperboard Folders, Mailers & Portfolios expand to fit their contents while staying flat, looking great and protecting the materials from damage. Due to their unique design, they can hold from 1 to 100 sheets of paper, spiral bound books and other materials of varying thickness.

Use the folder by itself or pair it with a mailer or portfolio to **create a powerful branding statement**. Place a FedEx, Priority Mail or UPS shipping label directly onto your corporate branded Conformer Expansion Mailer, promoting your corporate identity instead of your courier's. Now you have a package that demands attention.

Why are Conformer Expansion Paperboard Folders, Mailers & Portfolios superior to traditional products?

- Expands to fit and protect the contents
- Easily branded with logo or marketing message
- Stays flat when filled
- Custom printing, sizes, expansion and stocks available
- Printing options: litho, flexo, digital, stamping and embossing
- Portfolios and mailers available with tamper resistant and reusable closures
